

“Safe talk, home safe.”

Adrian Brand,
Conveyor Maintenance Supervisor
Mackay

Adrian Brand has a proven approach to staying safe on the job.

“Do it by the book,” says Adrian. “And if there’s any doubt, take five and consult the team.”

Adrian has been with Apex Fenner for seven years, starting out as an apprentice mechanical fitter.

He now leads teams of up to six technicians, working at coal mines and sugar mills around Mackay, keeping their conveyor systems running reliably and safely.

Apex Fenner is proud of its record on safety.

Adrian and his teams typically work at your place, not ours. So they are responsive to your safety codes and needs as well as ours.

When it comes to change outs and installation, our highly qualified technicians follow strict safety procedures, particularly during shutdowns.

Because at the end of the day we want Adrian and everyone else home safe with their families.
