

“You’ve got to keep an eye out for everyone.”

Paul Harrison,
Conveyor Technician,
Adelaide

Safety is a personal and a team responsibility for Paul Harrison.

“We consider everyone on the site, not just our own people,” he says.

Paul heads off to Roxby Downs for about a week every month. He also services conveyors at cement plants, quarries, foundries, and on board bulk carriers.

Yorkshire born, Paul joined Apex Fenner as an experienced welder fabricator – handy skills for a conveyor technician. And he knows the drill when it comes to safety.

Apex Fenner is proud of its record on safety. We don’t cut corners.

And when it comes to change outs and installations Paul, like all our highly qualified technicians, follows strict safety procedures, particularly during shutdowns.

Because at the end of the day we want Paul and everyone else home safe with their families.
